Developing an International Arbitration Practice in California

California is on the cusp of significant legislative changes regarding admission of out-of-state and foreign lawyers to participate in California-seated arbitrations. This legislation is intended to make California an increasingly more attractive venue for international arbitration disputes.

- *What does this mean for the future of international arbitration in CA?*
- *What challenges lie ahead for CA arbitration and its practitioners?*
- *What are the prospects for practitioners who wish to develop or further an international arbitration practice in CA?*

Join us for a discussion on these important changes and their practical impacts on international arbitration practitioners in California. We are very pleased to present a panel of speakers who are at the forefront of their respective fields and who will present diverse points of views.
