My personal ambition is to work hard to maintain and, if possible, improve the quality of Young ICCA's activities. I consider myself very fortunate to have followed Young ICCA's growth since as early as 2012, as an attendee, Steering Committee member, mentee, Events Coordinator and Global Events Director. I hope I will continue to work with the rest of the Young ICCA team to strengthen and expand Young ICCA's worldwide reach.

In particular, I hope to be able to work with the other co-chairs towards (i) increasing Young ICCA's cooperation with universities from all around the world, (ii) preparing a video-recorded version of Young ICCA's skills training workshops, to which practitioners even in remote jurisdictions will be able to have access and (iii) strengthening the Mentoring Programme, by organizing more frequent reunions, arranging monitoring of the groups' activities and creating a communications platform.
